# Company response and business conditions

The Pharmaceuticals Network business recorded a steady increase in new network members, while the Dispensing Pharmacy business saw a drop in the number of prescriptions filled owing to fewer medical examinations as a result of the COVID-19 pandemic. The increase in Pharmaceuticals Network business network members contributed to profit growth, as did progress in the Dispensing Pharmacy business with promoting the switch to generics, streamlining operations, improving productivity, and reducing expenses. The company also turned into the black at the net income level, due to JPY907mn in proceeds from the sale of some shares in a non-equity-method affiliate in December 2020, booked as extraordinary gains.

# **Community Pharmacy Network**

Segment sales: JPY99.2bn (-0.4% YoY)Segment profit: JPY5.7bn (+52.4% YoY)

> This is a new segment that integrates the former Pharmaceuticals Network business, the Dispensing Pharmacy business, and the manufacture and market pharmaceuticals business (mainly Feldsenf Pharma) previously included in Other.

### Pharmaceuticals Network

Despite the loss of some major customers, the number of new network members continued to increase, driven by the need for improved distribution efficiency. As of end-March 2021, network members numbered 6,116 (+871 versus end-FY03/20), consisting of 416 directly operated pharmacies and 5,700 affiliates. By end-March 2021, the company's market share exceeded 10%.

# **Dispensing Pharmacy**

Reflecting the decline in medical examinations in the wake of the pandemic, the number of prescriptions filled during the period was down. However, the company worked to promote the switch to generics as an economic alternative with stable supply, as well as to streamline operations, optimize personnel deployment, and reduce overtime. As of end-March 2021, the group had 416 dispensing pharmacies, one care plan center, and eight cosmetics/drug stores.

# Manufacture and market pharmaceuticals

This business aims to provide a stable supply of good-quality, low-priced generic drugs. As of end-March 2021, the company was selling 34 different ingredients and 68 products.

#### Digital shift

Subsidiary PharmaShift Co., Ltd. was established on October 1, 2020, to create a "new pharmaceutical platform" for the digital age. In March 2021 the subsidiary launched the "Your Family Pharmacy" service utilizing its official LINE account.

# **Background to earnings forecasts**

In the dispensing pharmacy industry, earnings traditionally have been at the mercy of biennial NHI drug price revisions. The first-ever "off-year" revision took place in April 2021, with revisions applied to some 70% of all pharmaceuticals on the NHI drug price list. Going forward, drug price revisions will take place annually (incorporating the off-year revisions), and Medical System Network foresees further deterioration in the business climate for dispensing pharmacies, heightening the need for operational stability. The company sees this change in the business climate as an opportunity for the Community Pharmacy Network segment's Pharmaceuticals Network business to expand via growth in the number of network members. In the Dispensing Pharmacy business, the company will focus on filling more prescriptions by strengthening family pharmacy functions and utilizing its LINE official account to enhance communication with customers. At the Leasing and Facility-related business, the company seeks to stabilize earnings by targeting 90% occupancy for all serviced residences for the elderly.
